

To read the damage status of a ShockWatch RFID Indicator,

1. Turn on the ShockWatch RFID Indicator.

If this bit is clear (equal to zero):

0 = No Damage

If the bit is set (equal to one):

1 = Damage

Below is sample code for an Impinj Speedway reader:

```

// ShockWatch RFID Indicator
// 1. Turn on the ShockWatch RFID Indicator
// 2. Read the ShockWatch RFID Indicator
// 3. Check the damage status
// 4. If the bit is clear (equal to zero),
//    the ShockWatch RFID Indicator is not damaged.
// 5. If the bit is set (equal to one),
//    the ShockWatch RFID Indicator is damaged.

```

1. Turn on the ShockWatch RFID Indicator.

2. Read the ShockWatch RFID Indicator.

```

// ShockWatch RFID Indicator
// 1. Turn on the ShockWatch RFID Indicator
// 2. Read the ShockWatch RFID Indicator
// 3. Check the damage status
// 4. If the bit is clear (equal to zero),
//    the ShockWatch RFID Indicator is not damaged.
// 5. If the bit is set (equal to one),
//    the ShockWatch RFID Indicator is damaged.

```

```

// ShockWatch RFID Indicator
// 1. Turn on the ShockWatch RFID Indicator
// 2. Read the ShockWatch RFID Indicator
// 3. Check the damage status
// 4. If the bit is clear (equal to zero),
//    the ShockWatch RFID Indicator is not damaged.
// 5. If the bit is set (equal to one),
//    the ShockWatch RFID Indicator is damaged.

```

```

// ShockWatch RFID Indicator
// 1. Turn on the ShockWatch RFID Indicator
// 2. Read the ShockWatch RFID Indicator
// 3. Check the damage status
// 4. If the bit is clear (equal to zero),
//    the ShockWatch RFID Indicator is not damaged.
// 5. If the bit is set (equal to one),
//    the ShockWatch RFID Indicator is damaged.

```

```

// ShockWatch RFID Indicator
// 1. Turn on the ShockWatch RFID Indicator
// 2. Read the ShockWatch RFID Indicator
// 3. Check the damage status
// 4. If the bit is clear (equal to zero),
//    the ShockWatch RFID Indicator is not damaged.
// 5. If the bit is set (equal to one),
//    the ShockWatch RFID Indicator is damaged.

```

please contact your ShockWatch representative.

1. Turn on the ShockWatch RFID Indicator.
